

# CoQ-10 Turbo Cell

Co-enzyme Q-10 Combination for Cellular Energy Production & Optimal Cardian Function

## What Is It?

Powerful Combination of Omega-3 Fatty Acids, Antioxidants and Coenzyme Q-10.

## Product Description

Co Q-10 Turbo Cell combines highly absorbable coenzyme Q-10, pharmaceutical-grade omega-3 fatty acids, and powerful antioxidant factors. Co Q-10 plays a critical in mitochondrial energy production (ATP). Low levels of Co Q-10 can lead to decreased cardiovascular capacity, fatigue, and oxidative stress related tissue damage.

The omega-3 fatty acids in this formula not only help contribute to daily omega-3 requirements, but also significantly improve the absorption dynamics of Co Q-10. Studies show that when Co Q-10 is emulsified in dietary fat, the absorption increases 300% compared to a dry form.

The antioxidants Co Q-10 Turbo Cell (astaxanthin, lycopene, lutein, mixed tocopherols, fat soluble vitamin C, and selenium) protect tissues from free radical damage and enhance energy production by blocking the disruptive effect that oxidative stress imparts on mitochondrial activity. Cellular free radical damage can reduce the mitochondria's ability to form ATP, the energy currency of the body.

## Health Benefits

*Co Q-10 Turbo Cell supports and promotes:*

- ATP synthesis
- Improved energy levels
- Healthy cardiovascular pumping activity
- Tissue protection by controlling free radical damage
- Healthy eyes and skin
- Gum health
- Healthy blood sugar regulation

## Why It's Better

Combining Co Q-10 with ultra-pure omega-3 fatty acids and powerful antioxidants enhances the benefits of this critical nutrient. The nutrient combination delivered in Co Q-10 Turbo Cell provides support for the structure and function of every cell in the body. While Co Q-10 supports energy synthesis and antioxidant activity, omega-3 fats improve the composition and function of the cellular lipid membrane. Improved lipid membrane structure allows more effective response to signaling factors, better assimilation of nutrients, expulsion of cellular waste and toxins, and reduced inflammatory capacity. The antioxidant factors in this novel formula provide protection to all organs and tissues, and by quenching oxygen derived free radical damage, they enhance mitochondrial energy production. The omega-3 fatty acids in Co Q-10

Turbo Cell are custom made by a world leader in omega-3 concentrate manufacture. Napro Pharma has been making the world's finest omega-3 formulas for over 20 years.

The production facility utilizes state-of-the-art Norwegian pharmaceutical grade and GMP-approved processes and equipment. The technology, experience, and proprietary production methods utilized by Napro Pharma combine to produce omega-3 oils that exceed all governmental and industry standards.

## Features

- Synergy of Co Q-10, omega-3 fatty acids, and select antioxidant factors
- Best price Co Q-10 in the professional market
- High absorption formula
- More health benefits than single ingredient Co Q-10 products

60 Softgels

# CoQ-10 Turbo Cell

Co-enzyme Q-10 Combination for Cellular Energy Production & Optimal Cardian Function

## Who Should Take Co-Q10 Turbo Cell?

Studies show that as we age our body's production of Co Q-10 diminishes. Young healthy individuals produce approximately 300 mg of Co Q-10 in their liver daily. After the age of 30, hepatic production of Co Q-10 diminishes. Reduced levels of Co Q-10 can result in low energy, diminished cardiovascular function, gum disease, blood sugar irregularities, and potentially neurological disease. Considering these facts, top health experts recommend that everyone over the age of 40 should supplement with between 50 mg – 100mg of Co Q-10 per day.

Statin drugs reduce the livers capacity to produce Co Q-10. Accordingly, it is particularly important for individuals taking this class of medications to supplement with highly absorbable Co Q-10.

## Supplement Facts

Serving Size 1 Capsule

Each Capsule Contains	% Daily Value	
Calories (energy)	10	
Calories from Fat	10	
Total Fat	1 gram	1.5%*
Cholesterol	Less than 5 mg	
Omega-3 Fatty Acids	125 mg	†
EPA (Eicosapentaenoic acid)	40-65 mg	†
DHA (Docosahexaenoic acid)	40-65 mg	†
Other Omega-3 Fatty Acids	25 mg	†
Ascorbyl Palmitate	250 mg	†
Vitamin C	100 mg	†
Co-Q10	50 mg	†
Natural Tocopherols including d-alpha, d-beta, d-gamma, and d-delta tocopherols	50 mg	†
Astaxanthin	1 mg	†
Lycopene	2 mg	†
Lutein (Free)	4 mg	†
Selenium (as L-Selenomethionine)	70 mcg	†

\* Percent Daily Value is based on a 2000 calorie diet.

† Daily Value not established.

Ingredients: Norwegian Virgin Salmon Oil, Softgel Shell (gelatin, glycerin, annatto extract, titanium dioxide, chlorophyll) Ascorbyl Palmitate, Mixed Natural Tocopherols, Co-enzyme Q10, Lutein, Lycopene, Astaxanthin, Natural Lemon Flavor, Proprietary Antioxidant Blend (consisting of rosemary extract, ascorbyl palmitate and natural tocopherols), L-Selenomethionine.
